CALL FOR IDEAS

# Willogoleche Hallett Community Fund

---

ENGIE in Australia is pleased to announce we will be setting up an annual community fund to benefit residents of Hallett and surrounds, once the Willogoleche Wind Farm is completed.

We're starting with no pre-conditions for this fund. We would like to hear from the Hallett community about what you would like funds to be provided for. It could be infrastructure such as building new facilities or upgrades to existing facilities; provision of new services; or anything at all that benefits the community.

We are deliberately not placing limitations on ideas, so think as creatively as you wish.

Ultimately we'll look to set up a committee with local resident involvement to oversee fund ideas.

For now, please email your ideas to: [simon.klapish@au.engie.com](mailto:simon.klapish@au.engie.com)  
or mail them to: Simon Klapish, Manager Corporate Social Responsibility,  
ENGIE, Level 33 Rialto South Tower, 525 Collins Street, Melbourne, Victoria 3000

We're always open to ideas, but responses by Friday October 28th would be greatly appreciated to help us get started.

Once the initial ideas have been assessed, we'll set up a local meeting to discuss them in more detail.
