Keeping our community informed

Activities to keep the Latrobe Valley community informed about progress of the Hazelwood Rehabilitation Project have continued over the last month.

Three community focus groups were held at the Italian Australian Club in Morwell, with 50 people attending.

Mine Technical Services Manager, James Faithful, delivered the workshops on the Mine Work Plan Variation and Mine rehabilitation.

Meanwhile last Tuesday, 24 April, a Project briefing was held for contractors with Project Director, Tony Innocenzi, outlining progress since closure and also plans for the remainder of the year.

He thanked those in attendance for their contribution to the Project. "We have many years of work ahead of us which will see many different companies continue to be involved."

ENGIE is committed to take on the major challenges of the energy revolution, towards a world more decarbonised, decentralised and digitised. The Group aims at becoming the leader of this new energy world by focusing on three key activities for the future: low carbon generation, in particular from natural gas and renewable energies, energy infrastructures and efficient solutions adapted to all its clients' needs (individuals, businesses, territories, etc.). The customers' satisfaction, innovation and digital are at the heart of ENGIE's development. In Australia, the company operates about 1,000 MW (gross) of renewable (wind turbine) and gas-fired generating plants in South Australia and Western Australia. Our retail business, Simply Energy, has more than 660,000 customer accounts in Victoria, South Australia, New South Wales, the Australian Capital Territory and Queensland. ENGIE Services employs more than 1,200 staff and offers innovative multi-technical design, installation and maintenance solutions for businesses and precincts across Australia and New Zealand.
