

Hazelwood Mine to conduct aerial spraying of ash pond

Aerial spraying will be undertaken in one of ENGIE Hazelwood's ash ponds (HAP4), adjacent to the Mine, to assist in ongoing dust suppression activities.

A helicopter will be used to spray a non-toxic dust suppression agent on the ash pond surface.

Work is planned to take place from 19-23 June, weather permitting.

For more information, contact 5135 5000.
