

Details Feed-In Electricity

South Australia: feed-in tariff

Eligibility

The current feed-in tariff will only apply to you if the generation facility at your Premises is a small renewable energy generation facility. A small renewable energy generation facility is a wind energy, solar energy, hydro or biomass energy generation facility (or any other a facility or class of facility that is specified by law or regulation as a small renewable energy generation facility) that is (or will be) connected to a distribution system, has an installed or name-plate generating capacity of less than 100 kilowatts. If at any time you're no longer entitled to a feed-in tariff for your feed-in electricity, whether because you cease to be eligible or the relevant scheme ends or otherwise, then we'll instead pay you a voluntary feed-in tariff no less than the voluntary feed-in tariffs included in offers for feed-in electricity we are making in the market at that time.

Feed-In Tariff Rates

If you are eligible for the current feed-in tariff:

- for each kilowatt hour of electricity you generate and export back to the electricity grid, we'll credit you 10 cents per kilowatt hour (GST if applicable); and
- your feed-in electricity credits will appear on your electricity bill.
- This is separate to any Premium Feed-in Tariff (PFIT) you may be receiving from your distributor

Additional terms

Your Agreement sets out additional terms of our feed-in arrangement with you.

Meter installation not done yet?

If you have a new generation facility which requires connection to the distribution network, please send us the following paperwork:

- Electrical work request which has been completed by your electrician.
- Certificate of electrical safety which may or may not have been provided to you by your electrician. This may have been provided directly to the network.
- Relevant application form for approval from your Distributor to connect to their
 - network: Solar Connection Form attached is required for all solar Feed In installation.
 - For any hydro/wind/biomass Feed In installation, please contact your local distributor for relevant application forms.

Use one of the following options to send in your paperwork:

Post: PO Box 210, Balwyn VIC 3103 | **Online:** simplyenergy.com.au/contact-us | **Fax:** 13 88 58

If you have any questions or concerns, please contact our Customer Care team on 13 88 08 Monday to Friday 8:00am- 7:00pm (AEST) and one of our friendly consultants will assist you further.
