

# COMMUNITY GRANTS UPDATE

**ENGIE is offering grants of \$30,000 annually during project development.**

**Congratulations to the following successful projects in 2025**

- Booborowie Primary School - a project to expand their school's vegetable garden, with new fruit trees and a bush tucker area.
- Jamestown Community School - a project supporting its Agriculture, Home Economics, and Breakfast Club student wellbeing programs.
- Friends of the Burra Railway Station - a project to repaint and preserve this historic building using local labour.
- Eudunda Christmas Parade Committee - a fabulous project to bring Christmas cheer to the community.
- The Eudunda Business and Tourism Association for a project to encourage more visitors to explore the area by developing new tourism brochures.

**GRANTS WILL OPEN AGAIN IN MID-2026!**

## Landcare Australia Partnership

As a part of our partnership with Landcare Australia, we've provided grant funding to a Landcare volunteer group located just an hour away from our Willogoleche Wind Farm in South Australia. The funding will help to install a 30,000-litre rainwater tank, pump, and fittings at the Tarcowie Town Hall, dedicated specifically for Landcare use and rural fire services (CFS) if needed. This will help ensure a more consistent water supply and support their incredible work restoring and protecting local biodiversity.
